Professional Summary

Data Science undergraduate, research assistant, and developer with strong experience in Python, APIs, full-stack web development, and problem-solving through hackathons and real-world projects. Published researcher with a CGPA of **9.575/10**, passionate about building technology solutions for sustainability, education, and urban challenges.

Education

GD Goenka University | B.Tech. CSE Data Science | 2023-27

Work & Research Experience

Research Assistant | RYM Grenergy | 2023 May-2023 July

- Conducting research on sustainable energy solutions and innovative green technologies.
- Collaborating on projects related to renewable energy and environmental sustainability.

Founder & Developer | MYM: Meet Your Mentor | 2024 - Present

- Developed a platform that connects youth with mentors to propose solutions for India's Sustainable Development Goals (SDGs).
- Implemented interactive features for discussions and knowledge sharing.

Hackathon & Open Source Contributor | GSSoC & Various Hackathons | 2024 - Present

- Contributed to open-source projects, improving API integrations and software functionalities.
- Participated in multiple hackathons, winning or reaching the final rounds in various competitions.
- Contributor at Open Source Connect Global by NexFellow

Technical Skills

- **Programming Languages:** Python, JavaScript, SQL, No-SQL
- **Web Development:** HTML, CSS, React.js, Node.js

- **Databases:** MongoDB, Firebase, DBMS
- **API Development & Testing:** Postman, REST APIs
- **Tools & Technologies:** Git, GitHub, Google Maps API, VLOOKUP, Excel, Power BI, Tableau, Neo4j

Projects

Coolsphere — Urban Heat Island Mitigation

- Web app using Google Maps API to identify UHI hotspots with authentication and backend data handling

Breast Cancer Image Classification (ML Project)

- Built an image classification model using Python and Kaggle datasets to detect cancer patterns

STEMverse — Gamified STEM Escape Room

- Designing an inclusive web-based escape room platform for interactive STEM learning

TimeCapsuleYou — Memory Preservation Web App

- Developed a personalized memory platform with handwriting and language customization

Research Publication

Published research article indexed on Google Scholar: “Transformative Infrastructural Development in India: A Catalyst for Economic Progress”

Hackathons & Competitions

- **Smart India Hackathon (SIH) – Top 5 Selection** (2024)
- **Brainwave Hackathon (DTU) – Selected for Offline Round** (2024)
- **Viksit Bharat – Advanced to 3rd Round, Presented in Kurukshetra** (2024)
- **BrandSkulpt Challenge (IIT)** (2025)
- **Google India’s Girl Hackathon** (2025) participant
- **Hack for Green Bharat by .pathway** (2026) participant

Certifications

- **Python Fundamentals for Beginners** – Great Learning
- **Postman API Fundamentals Student Expert** – GSSoC
- **Generative AI Certification** – LinkedIn Learning

- **Excel & VLOOKUP Courses** – Great Learning
- **National Space Day Certificate** – ISRO

Extracurricular Activities

- **Classical & Folk Dancer** – Vice President of the Dance Club at the university level
- **Hackathon Mentor & Open-Source Contributor** – Actively contributing to community-driven projects
